Clinic COVID-19 Employee and Provider Screening

As of March 26, 2020

Background: To prevent the potential spread of illness and for the safety of all employees and providers will be screened **daily** by clinic leadership (or designee) and practice diligent self monitoring.

Clinic Leaders will complete the attached screening log at the same each day, preferably before the beginning of the shift.

****Employees/Providers are asked to monitor their temperature 2x/day****

1. In the last month, have you been in contact with someone who was confirmed or suspected to Have Coronavirus/COVID-19?
 - a. If yes, were you cleared by EOHW to return to work?
2. In the past 24 hours have you exhibited any of the following symptoms?

Fever (for HCP a temperature great than 100.0F)
New onset of cough (within the last 2 weeks)
Shortness of breath
Sore throat
Nasal Congestion and runny nose not associated with allergies
Body aches /Muscle or Joint Pain

If the answer to any of these is yes or the employee/provider is unsure about their symptoms being allergy related, they are asked to go home and contact the COVID Hotline:

919-385-0429, Option 1
