*All visitors or Support Persons may be required to submit to health screenings & to comply with all infection control and other safety procedures, including wearing PPE.

*Surgical admissions include Same Day Admission (SDA), Inpatient and 23 Hour stay.

*Exceptions may be made for (a) patients who have communication barriers and those who need a Support Person, including to assist with decision making and (b) Compassionate Care Visitors.

*For Birthing Centers, if nursing mother is admitted after the baby is discharged, the baby may room in to nurse.

*In Pediatric Units, requests to allow nursing siblings to be by the bedside will be by exception only.

*Overnight visits are not permitted in shared patient rooms.

Support Person includes, but is not limited to, a patient's spouse, a domestic partner (including a same-sex domestic partner), a family member or a friend. Hospital patients also have the right to withdraw or deny their consent to Support Persons at any time. Support persons will not be prohibited by restricting, limiting or otherwise denying support based on race, color, national origin, disability, religion, sex, sexual orientation, gender identity or expression.

External Clergy are permitted to visit upon request or consent of the patient and/or the patient's surrogate/designated decision maker. Exceptions are permitted if the use of personal protective equipment interferes with the religious beliefs of the patient or visiting clergy member. Contact OA should a concern regarding PPE arise. OA will consult with on-call chaplain.

*Exception may be granted to also permit a **Compassionate Care Visitor**. Refer to Escalation of Exceptions to Visitation Guidelines.

Compassionate Care Visitors: Individuals who request to visit a patient who is experiencing any of the following circumstances: (a) end-of-life situations; (b) the patient was living with his or her family before recently being admitted to the facility and is struggling with the change in environment and lack of physical family support; (c) the patient is grieving after a friend of family member recently passed away; (d) a patient who needs cueing and encouragement with eating or drinking, previously provided by family or caregivers, is experiencing weight loss or dehydration; or (e) the patient used to talk and interact with others, but is experiencing emotional distress, seldom speaking, or crying more frequently when the patient rarely cried in the past. A patient's care team shall determine whether a patient is entitled to Compassionate Care Visitors. Patients have the right to withdraw or deny their consent to one or more Compassionate Care Visitor at any time.
